

HARI PRASAD L

Product Designer, UI/UX

About ›

When passion becomes your job, it doesn't feel like work. It feels like riding horses in heaven. I'm one such horse rider. I design!

Work Experience ›

8+ yrs

● **Product Designer | 4 yrs 6 mos**

Poshmark Feb 2022 - Present

- Designed Listing Streaks end-to-end, driving a 14% uplift in weekly lister conversion — directly impacting seller growth and platform engagement.
- Designed Case Tracker, an in-app case management experience that cut duplicate case rates by 52% (13.0% → 6.2%) and absolute duplicates by 58% (~6,400 fewer/week), while reducing overall web case volume by 23% — with 28–31% of case-raisers actively engaging the tracker and 3K–5K in-app messages sent daily.
- Partnered with product managers and engineers across India, the US, and Korea — driving alignment on product direction, shipping velocity, and design quality across distributed teams and time zones.
- Led design for major product initiatives including App Redesign, Closet Page Redesign, Consignment, Reposh, Bulk System Actions, and New KYC flow (Project Socure), spanning 0→1 features and large-scale system overhauls.
- Crafted Pull-to-Refresh, confetti sale celebrations, micro-interactions, and onboarding animations — delivering emotional delight to millions of sellers at scale.
- Led casual seller initiatives and the Push Prompt Post-Listing flow to reduce first-time seller order cancellations.
- Owned the Ops Pod end-to-end — managed and shipped multiple concurrent projects while maintaining design quality and stakeholder alignment.
- Collaborated cross-functionally to deliver Canada Purolator and Overweight Shipping Labels, extending Poshmark's logistics experience to new markets
- Contributed to the design system from week one — established visual quality standards and craft benchmarks adopted across the team

○ **Product Designer | 4 mos**

Gold Setu Oct 2021 - Jan 2022

- Designed of customer-facing web and mobile experiences for a gold investment platform — from discovery through pixel-perfect delivery.
- Brought the brand to life through motion — animated the company logo and produced presentation videos used for stakeholder and investor communication

Product Designer | 2.3 yrs

IO Factory May 2019 - Sep 2021

- I'm responsible for designing new products, interfaces, and user experiences across multiple platforms.
- I have worked on more than 30 SaaS products notably, Pipeline, People, Budget, Mapbox, VR Viewer.
- Single-handedly driving designs and overseeing the strategic and tactical deliverables related to that project.
- Collaborating with engineering team and product managers throughout the design process to create user flows, wireframes & build user-interface mockups and prototypes with micro interaction animations.
- Simplifying complex user interactions, highlighting product's brand and unique personality.
- Creating design guidelines, best practices and standards.
- Hiring and managing freelance designers, design interns every now and then to meet the product requirement.

UI/UX Designer | 1 yr

Kilobyte Technologies May 2018 - Apr 2019

- Leading projects, being responsible not only for the delivery but also managing client relationships.
- Being an active part of hands-on work in projects, both at early concept stages and during detailed end-to-end implementation.
- Supporting business development, including shaping and creating proposals to potential clients.
- Managing junior designers to meet the estimated deadlines.

UI/UX Designer | 1 yr

Firius Technologies Pvt Ltd Jul 2015 - Jul 2016

- Creating webpage layouts for developers and wireframes for both the website and mobile apps.
- Delivering projects ranging from digital marketing ads, event invites, social media creatives, sales decks and other collaterals.
- Keeping the brand ethos in mind and work under a predefined brand guideline.
